

IDENTIFICATION WORKSHEETS

Identification - Grammar Challenge

"You are never ____ old to learn something new."

1/ **A - very, B - enough, C - too, or D - seem**

.....

Information - There are 3 natural kingdoms, Animal, Plant and Fungi.

The Animal Kingdom is made up of all of the creatures that inhabit our 'Wonderful Planet'.

Although we are phenomenally successful, human beings are as much a part of the Animal Kingdom as big cats (mammal species) or doves, who are avian (bird species), Frogs or Toads (amphibian species) or any other of the many creatures on earth. The wonderful life forms which we find deep in the oceans, to the birds that fly on high and all the other creatures and other life forms that make our planet, which are so full of life, are all our real friends of the wild and we should love and protect them from any harm, as we owe it to our future generations.

It is very important to know and understand what our animals look like and to know and understand their survival needs.

Identification - Animal Legs

A

RM7

B

LM28T

C

OB3

D

WM11S

2/ **Which is an Ostrich Leg : - A, B, C, or D**
